| Chapter number | Software required (With version) | Free/Proprietary | If proprietary, can code testing be performed using a trial version | If proprietary, then cost of the software | Download links to the software | Hardware specifications | OS required |
|---|---|---|---|---|---|---|---|
| All | Python 3.7 | Open Source | N/A | N/A | https://www.python.org/downloads/ | Any normal computer. | Any |

Detailed installation steps (software-wise)

The steps should be listed in a way that it prepares the system environment to be able to test the codes of the book.

1. Python:
    1. Download installer from www.python.org
    2. Follow installer instructions
    3. Install requirements from requirements files in source code (see `https://github.com/PacktPublishing/Learn-Python-Programming-Second-Edition/blob/master/README.md`)
